ECO TERRA

OUR PRODUCT

ECO TERRA is involved in manufacturing and stocking a wide range of Eco-friendly bags and table ware , we can also create Eco-friendly products to any specification using our bespoke service. Our bespoke option has no limitations on size, material, color and extra accessories. As always, we still carry high quality dinnerware and food containers that are more traditional, including plastic plates, foam bowls, supermarket containers with lids and more. And don't forget that Eco Terra is also the one stop shop for any flexible packaging needs.

BIODEGRADABLE PLASTICS

Biodegradable plastics are plastics that will decompose in natural aerobic (composting) and anaerobic (landfill) environments. Biodegradation of plastics occurs when micro organisms metabolize the plastics to either assimilable compounds or to humus-like materials that are less harmful to the environment.

OUR SERVICE

we offers a broad line of Biodegradable and compostable bags and tablewares, designed to meet all the wide range of spectrum of single use packaging requirements. Whatever your packaging needs, we have a standard or specialty product, to cater. Plus, our products are available in all the sizes and lots small or large lot sizes. whatever the quantity, you can count on us to deliver it in a timely manner.

WHAT MAKES US DIFFERENT

At Ecoterra, its not the business or the customer, for us the nature comes first.

Online capabilities, our web page offers, complete product information with our supply capabilities. We have single click sample ordering and bulk ordering systems. First of its kind in the bio plastic industry. Our sales and marketing team consist of people from production experience and application knowledge. We have partnership with leading logistics operator throughout India.

NO PLASTIC IS FANTASTIC!
